ACCESS PHYSICIANS-PSYCHIATRY COPES²

An innovative approach to outpatient management of mental illness.

Access Physicians is a multi-specialty physician group committed to clinical excellence through telemedicine. Recognizing the need for outpatient management of psychiatric care Access Physicians-Psychiatry developed

COPES²

Consultation Outpatient Psychiatric
Evaluation Stabilization & Support Clinic.

We provide expert specialty outpatient consultations via telemedicine to assist development of evidence-based treatment plans for long term management of patients with mental illness. This approach helps increase access to psychiatric care for patients in their own community and provides support for long term stability while reducing liability.

WHAT WE DO

- Diagnose and design treatment plan for patients with psychiatric symptoms
- Refine treatment plan to stabilize established patients with exacerbation of symptoms
- Schedule visits until stabilization is achieved
- Recommend long term treatment plans for primary care providers
- Re-consult as needed

WHAT YOU CAN EXPECT

- Timely Evaluations
- Comprehensive Consultations
- Medication Recommendations
- Management of Side Effects
- Safety Recommendation
- Lab and Followup Schedules

PATIENTS WE SEE

- Depression
- Anxiety
- Bipolar Disorder
- Personality Disorders
- Schizophrenia/schizoaffective Disorders
- Substance Use Disorders

WE HELP YOU COPE!

- EVALUATE
- STABILIZE
- SUPPORT
